

USP COMPLIANT CLEANROOMS

Whether a small pharmacy or large healthcare center, Lasco Services can help you assess your compliance needs and offer quick, cost-effective solutions. We manufacture and stock the walls, ceiling materials, HEPA filters, lighting and all the components required for USP 797 compliance. We are a licensed mechanical contractor that can evaluate and modify your HVAC system. Our teams include a full service design/drawing department, code compliance experts, installation technicians and supervisors with over 15 years experience in cleanroom installations.
