# WALL

# SYSTEM

The Lasco 1751 Cleanroom Wall System is a non-progressive, flush panel wall system. Each wall module consists of a prefabricated frame, trim and panel assembly. One-sided modules are connected by pre-drilled fasteners and pre-installed inserts. Two-sided modules are connected by integral latches with a hex key. This makes installation and relocation quick and easy. Wall modules come pre-mounted and prewired with electrical receptacles or other utility connections as needed.

## Benefits

- Each module installs in minutes; entire cleanrooms in less than a day.
- Precision crafted for easy assembly.
- No specialized crew or cutting necessary.
- Each individual module may be removed without disturbing the cleanroom.
- Prewired for electrical receptacles & switches.
- Fits any size space from 6' x 6' to 600' x 600'.
- Perfect for Class 10 to Class 100,000 (ISO 4 to ISO 9).
- Each module features detachable panels and trims for easy replacement, modification, or accessibility.

## Options

- Spacer modules for unusual dimensions and out-of-square conditions.
- Detachable coving available for floor, corner and ceiling conditions.
- Double-Sided and Insulated Modules.
- Standard Swing or Slider doors.

## Applications

- Environmental Rooms
- USP 797 Cleanrooms
- Pharmaceutical Packaging and Assembly
- Food Processing
- Electronics
- Aerospace
- Semiconductor
- Automotive

## Installations

- Alcon Labs, Cook Children's Healthcare, Cypress Semiconductor, DMV International, L-3 Communications, LexMark, LifeCare Hospitals, Lockheed Martin, LSA Cleanpart, NASA, Perlos, Raytheon, Swift Data Recovery, Umicore, University of Texas

## System Specifications

### Frames and Trims

Aluminum with optional Mill finish, Clear Anodized, or Powder Coat White finishes

### Standard Panel Options

- ¼" Aluminum Composite in Eastman White or Lasco ESD White
- ¼" Aluminum Honeycomb in Polar White
- ¼" Polypropylene in White
- ¼" Clear Acrylic, Polycarbonate or Tempered Glass
- Custom panels and colors available

### Standard Heights

8', 10', 12', 14', 16'
